In this project, I designed and managed a **Meta Ads campaign** for **Star Insurance Company** aimed at generating qualified leads for health insurance. With a **₹25,000 budget for 15 days**, I performed **competitor research** on Policybazaar, HDFC ERGO, and ICICI Lombard, and positioned the brand using strong **USPs** such as transparent coverage, cashless hospital network, fast claims, and affordable premiums.

I set the objective to **"Leads,"** built detailed audience segments targeting families and professionals aged 25–55, and configured placements across **Facebook and Instagram**.

I developed a compelling ad with a "Get Quote" CTA, created a **lead form**, and reviewed **estimated results** to evaluate lead potential and cost efficiency.

A. Competitor Research:

1. Policybazaar:

Policybazaar is one of India's largest online insurance marketplaces, offering comparisons and instant purchase options for various insurance products including health, motor, and life insurance.

- Easy policy comparison across multiple insurers.
- Instant online quotes and paperless buying process.
- 24x7 customer support and claim assistance.
- Heavy use of retargeting ads and influencer collaborations.
- Focus on trust-building through testimonials and expert videos.

Policybazaar dominates digital insurance marketing by combining trust, transparency, and convenience. Their remarketing and educational content strategy can be adapted for Star Insurance's lead generation funnel.

2. HDFC ERGO Health Insurance:

HDFC ERGO is a joint venture between HDFC and ERGO International (Germany), offering a wide range of health insurance plans with strong brand trust and customer service.

- Focuses on family and individual health plans.
- Quick cashless claim settlement across 12,000+ hospitals.
- Heavy emphasis on customer satisfaction and app-based policy management.
- Uses testimonial and lifestyle-based visuals in ads.
- Regular awareness campaigns on preventive healthcare.

HDFC ERGO leverages emotional and trust-driven campaigns emphasizing family health. Star Insurance can replicate this emotional connect while simplifying the inquiry process.

3. **ICICI Lombard General Insurance Company Limited:**

ICICI Lombard is one of India's leading private sector general insurers offering a diversified range of products including health insurance. It has a strong brand presence, robust digital infrastructure and a well-established parent group backing.

- Strong financial backing and diversified product portfolio: motor, health, fire, marine, etc.
- Competitive pricing in health insurance: for example, for a ₹10 lakh cover the premium is lower than some peers.
- Large network of branches, digital platforms and claims infrastructure; early adopter of cloud and tech solutions.
- However, in the retail health segment it still lags behind dedicated health insurers and major players in terms of market share.
- Claim Settlement Ratio (CSR) for health is around 85% (2021-24 average) which is competitive but not best-in-class.

ICICI Lombard is a strong competitor thanks to its brand, breadth of offerings and pricing edge, but in the dedicated retail health insurance space it doesn't yet lead. For our campaign (for Star Insurance Company), this means we can position ourselves against its "generalist" approach by emphasizing specialise/health-only focus, faster service or unique benefits to carve differentiation.

B. **Unique Selling Points (USPs) for Star Insurance Health Plans**

1. **Comprehensive Coverage with No Hidden Clauses**
   - Transparent policies with clear terms.
   - Coverage for hospitalization, pre & post-care, and daycare procedures.
   - Ideal for families, individuals, and senior citizens.
2. **Cashless Hospital Network Across India**
   - Access to 8,000+ network hospitals for cashless claims.
   - Hassle-free approval process within hours.
   - 24x7 claim assistance through dedicated helpline.

3. **Affordable Premiums, High Value Protection**
    - Flexible plans starting at ₹10/day.
    - Customize coverage based on your family size and lifestyle.
    - Exclusive wellness discounts for healthy behavior.
4. **Fast & Easy Claim Settlement**
    - Average claim settlement time: within 2 hours for cashless treatment.
    - Simple digital process – no lengthy paperwork.
    - Real-time claim tracking via website or app.
5. **Dedicated Health Advisors for Every Customer**
    - Personal assistance in selecting the best plan.
    - Support in policy renewal, add-ons, and queries.
    - Builds trust and long-term customer relationships.
